

Mid-Thames Audio-Visual Group

is honoured to host

The Royal Photographic Society Audio-Visual Group Prestige Tour of International Speakers

Jean-Paul Petit EFIAP and Jacques van de Weerd
at Wokingham on Sunday 23rd September 2012

The Royal Photographic Society Audio-Visual Group has arranged a special UK tour of two highly esteemed audio-visual practitioners from continental Europe. Jean-Paul Petit EFIAP from Montrouge in the suburbs of Paris and Jacques van de Weerd from Belgium.

Jean-Paul and **Jacques** are internationally renowned, award winning Audio-Visualists, judges, and book authors. They will be Jury members at the RPS 20th International AV Festival to be held at the Royal Agricultural College, Cirencester, over the weekend of 14th -16th September.

Their UK Tour commences in the week immediately following the Festival. They are appearing at three venues across the country where audiences will be delighted and entertained by these two masters of their craft.

Jean-Paul and Jacques first met at the 'Photo Club des PTT des Paris' in 1982 and have worked together since.

Jean-Paul has also worked with Colin Balls and he collaborated with Colin in the making of 'Mission No 9'. Jean-Paul is also the author of two Audio-Visual books and memorable sequences such as 'Pinball', 'Ballata Emiliana', 'When I was an Apple Scruff', British Embassy. He is co-organizer of 'The Trophée de Paris'.

Jacques started his audio-visual career at Liege in Belgium in the early 1970's. Since then he has produced many memorable and successful sequences aided by his theatrical background and interest in literature. Jacques works include 'The Black Legend', 'Miners Strike', 'Breendonk Without End', a sequence about the only concentration camp in Belgium. 'Savimby the Best'. In collaboration with Jean-Paul he has produced 'Bergstaden', 'La Flamme', 'La Grande Prairie' and many others.

The Mid Thames AV Group are proud to be celebrating Jean-Paul and Jacques final show with a full AV Day at Wokingham on Sunday 23rd September. This will be the only lecture to be given by this talented duo in Southern England so demand for seats is sure to be high. Jean-Paul and Jacques will appraise attendee sequences in the morning. In the afternoon they'll enthuse and excite us with their own presentation and sequences.

This Mid Thames AV Day will make a successful conclusion to their UK visit.

Community Centre, Woosehill, WOKINGHAM RG41 3SW
